## Work Experience

### **mNectar - Technical Playable Artist**

2016 – Current

published mini-games: **Poker, Wizard of Oz Slots, Secret Society hidden objects, Kitchen Scramble...**

- Used HTML5, JavaScript, and CSS as tools for front end development
- Created strong animations for playable ad units with cutting edge effects for top grossing apps
- Skillfully deployed techniques that saved time and money while achieving a refined finish to technical animations and effects
- Collaborated with Business Operations and Engineering to ensure client satisfaction and successful launch
- Tested and Debugged ads for quality assurance

### **mNectar - Creative Designer**

2013 – 2016

published mini-games: **Candy Crush, Cascade, Fairway Solitaire, Jelly Splash...**

- Successfully delivered custom user interfaces for interactive and animated ad units from concept to creation, based on client needs
- Mastered visual programs, such as Photoshop and After Effects to create animations and assets for games
- Adapted quickly to production pipeline changes by developing new technical skill sets and workflows
- Researched mobile trends and user experience to cater to targeted audiences
